Definite Location of Site For Gardena Park Said Essential

No further steps will be taken by the Gardena Valley Chamber of Commerce toward establishing a public park and playground in the Los Angeles "sheepestrip" until opportunity is given all property owners to submit their proposals and a definite decision is made as to where the proposed park is to be located.

This was the result of several weeks' work on the part of the chamber, as reported by the Gardena Valley News last week. If possible, some method may be worked out after all sites are listed to allow the voters to cast a straw vote for their choice as to location. Following this, if there is enough sentiment in favor of such a park to carry a bond issue by a two-third vote, an election will be asked, it is reported.

Call for Listings
 The location of the park must be decided on, however, according to the Los Angeles Park commission before that body will make a survey and draw plans. Two locations have already been proposed to the directors, one being available near 185th and Menlo, the other near Palm and Figueroa. The park department recommends, according to the News, either a 10 or 20-acre park.

Those who have listings that would serve for such a recreational center have been asked to report them to the Gardena Valley chamber at once so that they may be

Torrance to Be Represented At Fiesta in Sept.

Torrance will be represented at La Fiesta de Los Angeles by an official delegation, appointment of which is announced by Mayor John Dennis, and to include the following: C. B. Bell, E. C. Nelson, Dr. G. A. R. Steiner, Michael Strasser, F. R. Leonard, R. R. Smith, Carl Hyde, Donald Findley, A. H. Bartlett and Earl Conner. The mayor himself will head the delegation.

The appointments were made in response to an invitation from Mildred B. Dockweiler, president of the association which is planning Los Angeles' 150th birthday party, September 4 to 13. La Fiesta de Los Angeles is a proposed 10-day merry-making on a scale expected to attract nationwide attention. Mexican and Spanish atmosphere of the primitive Los Angeles will be revived by turning the entire city into a carnival of olden time. Motion picture stars in bejeweled carriages will ride in state beneath the beams of powerful searchlights along crowd-lined lanes, while other parades will be of pioneers and elaborate floats depicting historical events of long ago.
